

<b>Name:</b>	Rotary / ARCBS Cord Blood Facility	<b>Client:</b>	PACT CONSTRUCTION (For the Australian Red Cross Blood Service)
<b>Specifying Authority:</b>	Asia Pacific Consultants	<b>Site Location:</b>	Level 3, 290 Wellington Street, Perth
<b>Value at Completion:</b>	\$490,000 - Ongoing Project	<b>Year Completed:</b>	Ongoing

**Project Description:**

The Rotary WA Cord Blood Bank is housed in a new extension on the third floor of the Australian Red Cross Blood Service building in Wellington Street, Perth.

The facility is used to process, test and store cord blood donations according to stringent safety and regulatory requirements, until they are required to be used for a matched critically ill patient waiting for a transplant.

Haden have been contracted to supply, install, test and commission all mechanical services associated with the heating, ventilation and air conditioning, air extraction and water treatment of the Rotary / ARCBS Cord blood facility. This includes:

- complete air conditioning works comprising of a chiller, air handling units, fan coil units, extract fans, electric heaters,
- filters including HEPA filters
- pumps and all associated piping, valves, ducting, dampers, diffusers, wiring, cabling
- electrical switchboards and control systems.
