

PROJECT PROFILE

Name: Rio Tinto Operations Centre
Panduit Data Comms Network

Client: AB Tilbury

Owner: Rio Tinto

Site Location: Perth Domestic Airport

Value at Completion: \$480,000

Year Completed: 2009

Project Description:

To supply and install Panduit Data and Communications network to Operations centre including Communications Cabinets, Cat6a 10 Gig copper network and Fibre to the Desk-top, Leaky Feeder Coax distribution system, Wireless access points and MATV/PayTV system.

O'Donnell Griffin – Data WA were nominated as 1 of 3 tenderers for the largest and most elaborate Panduit 10Gig and Fibre to the desk-top installtion in Australasia at the ROC.

The Operations Centre (ROC) was built for Rio Tinto near Perth's domestic airport. The ROC will house at least 320 employees who will work with Pilbara-based colleagues to oversee, operate and optimise the use of key assets and processes, including all mines, processing plants, the rail network, ports and power plants. Operational planning and scheduling functions will also be based in the ROC.

The centre features an operational control room, office block and supporting infrastructure, and allow for potential significant expansions beyond its initial scale.

Personnel:
Estimator: Paul Wilson
Project Manager: Ben Tapscott
Site Supervisor: David Zuniga

Special Project Achievements: First installation of it's kind in Australia. Flagship installation for Panduit Australia.
