

Name:	Western Power East Perth Network Extension, South Section	Client:	Western Power
Owner:	Western Power	Site Location:	East Perth, WA
Value at Completion:	\$150,000	Year Completed:	2009

Project Description: The supply and installation of pit and pipe work (Emtelle Blown Fibre Ducting System) throughout East Perth to link Western power Substations.

O'Donnell Griffin – Data WA were awarded the East Perth South Section network Extension after recently being added to the Western Power Fibre Network panel contract. Our competitive price and commitment to the tight time frame were key reasons for our success on this project. Special attention to the City of Perth and East Perth Redevelopment program requirements proved our professional approach and attention to detail outlined in our bid could be achieved above expectations.

Personnel:	State Manager WA: Paul Wilson
Special Project Achievements:	This project was carried out over a three month period under strict guidance and compliance with the City of Perth and East Perth Redevelopment organisations.
Quality Standards Applicable:	ISO 9001:2000 Quality
Specific OH & S Requirements:	AS/NZ 4801:2001 Safety
