

Name:	Bond University	Client:	Bond Uni Direct
Site Location:	Robina, Gold Coast	Year Completed:	2006
Value at Completion:	\$320,000 with an ongoing maintenance contract.		

Project Description:
Design & Construct

Set on a 49.86 hectare campus in Robina on Queensland's Gold Coast, this private world-class university has been designed in the style of the traditional grand sandstone campuses.

As one of two universities on the Gold Coast, Bond is home to 4,000 students making it an influential facility to thousands of Australian and international pupils in the global tertiary education market.

Haden was selected to complete this Design and Construct project due to our high level of skill and expertise in the installation and maintenance of York chillers and equipment.

Our York chiller specialist technicians provided a degree of service to the client that extended beyond technical expertise to preserving the comfort and safety of staff and students.

Haden have continued to provide Bond University with ongoing mechanical services under our comprehensive maintenance agreement.

Haden's involvement with this project included:

- VSD design
- CFC Conversion
- York centrifugal chillers
- Ongoing chiller and HVAC maintenance.
