

Name:	BHP Billiton Iron Ore	Client:	BHP Billiton Iron Ore
Site Location:	Nelson Point & Finucane Island, Port Hedland W.A.	Contract Duration:	2003 to current

Project Description:	<p>Haden were selected in 2003 from a field of HVAC providers to supply Air Conditioning Service & Maintenance and all mechanical services for the port & rail areas at Nelson Point, Finucane Island & Redmont. The equipment ranges from:</p> <ul style="list-style-type: none"> • Chilled Water Central plant • packaged air conditioning systems • refrigeration coolrooms and freezers • ice machines • drinking water machines • mobile equipment air conditioning. <p>The Port areas are a complex, multi-faceted combination of administration buildings, mess facilities, substations, crushing equipment, reclaimers, bucket wheel loaders, ship loaders, mobile plant and other specialised equipment.</p> <p>Rail areas include locomotives, specialised rail equipment, substations and control rooms.</p> <p>Haden also have the contract to service and maintain over 1200 BHPIO residences in the township of Port & South Hedland.</p>
OHS and Environmental Initiatives:	<p>We adapted our own robust internal safety system (overseen by our National HSEC team) to work in with the stringent OHS & Environment requirements paramount on all BHPIO sites.</p>
