

PROJECT PROFILE

Name: Rio Tinto Aluminium Bell Bay
Tasmania

Client: Rio Tinto

Specifying Authority: NOSA Accreditation

Site Location: Bell Bay ,Tasmania

Contract Duration : Ongoing, commenced March 2004

Project Description: Rio Tinto Bell Bay is an aluminium smelting plant located at the head of the Tamar River in Northern Tasmania. It operates 24 hours a day, every day of the year, due to the high temperatures that must be maintained for the aluminium smelting processes.

Haden were awarded the mechanical services maintenance contract in March 2004.

The equipment maintained on this site includes:

- large compressed air driers
- office space heating and air conditioning.

OHS & Environmental Initiatives:

As a large industrial site, special safety requirements are adhered to with all Haden staff inducted in several areas of the plant.

Haden have exceeded Rio Tinto's requirements on EH&S, Quality Communication and Impact on Production
